**Re: Antimalarial compounds**

Dear Mark,

Please find enclosed 24 mg of MMV897709 (AEW 313-1).

Chemical Formula:  $C_{21}H_{15}F_2N_5O_2$   
Molecular Weight: 407.38

The compound is classed as non-dangerous goods for transportation purposes.

Many thanks for offering to resolve the enantiomers,

Kind Regards

Dr Alice E Williamson
