MISSION AND VISION

- Our mission is to leverage technology and our expertise to support the BREADS Organisation in their mission of focusing on childcare and healthcare including prevention of drug abuse and addiction among children/youth and rehabilitation.
- We aim to streamline their process, enhance efficiency and ensuring that each and every student who are willing to get rid of the addiction, must get proper counselling sessions and support from the BREADS Organization.

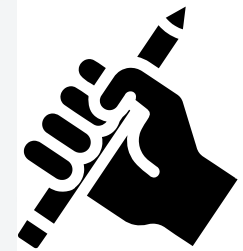

OBJECTIVES

Develop a system or process to assess and identify different types of addictions among students, such as substance abuse, internet addiction, gaming addiction, drugs addiction etc.

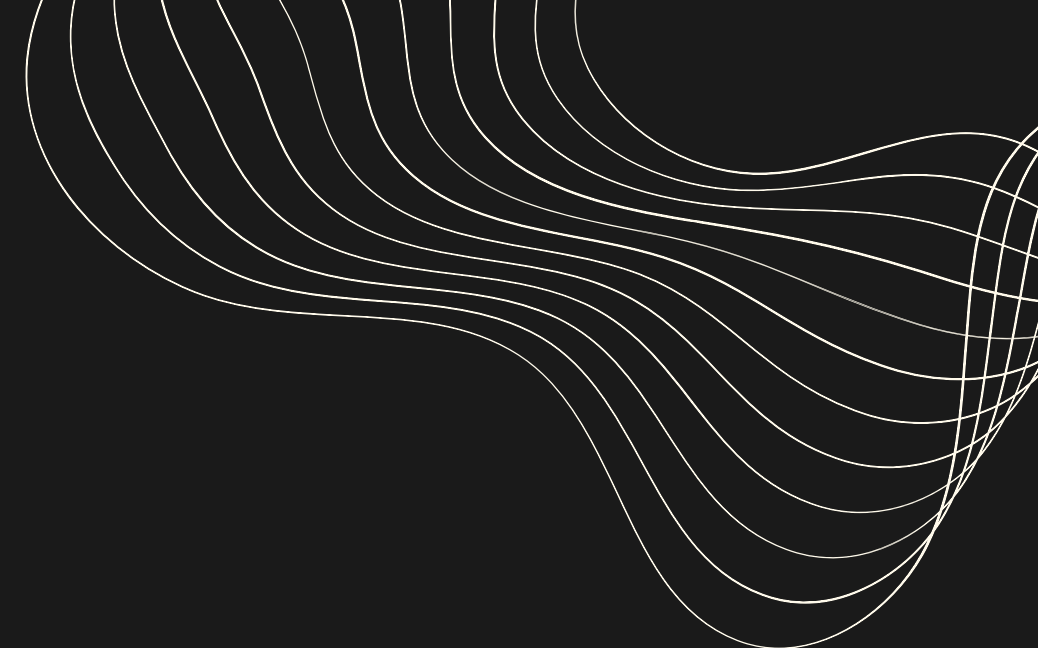

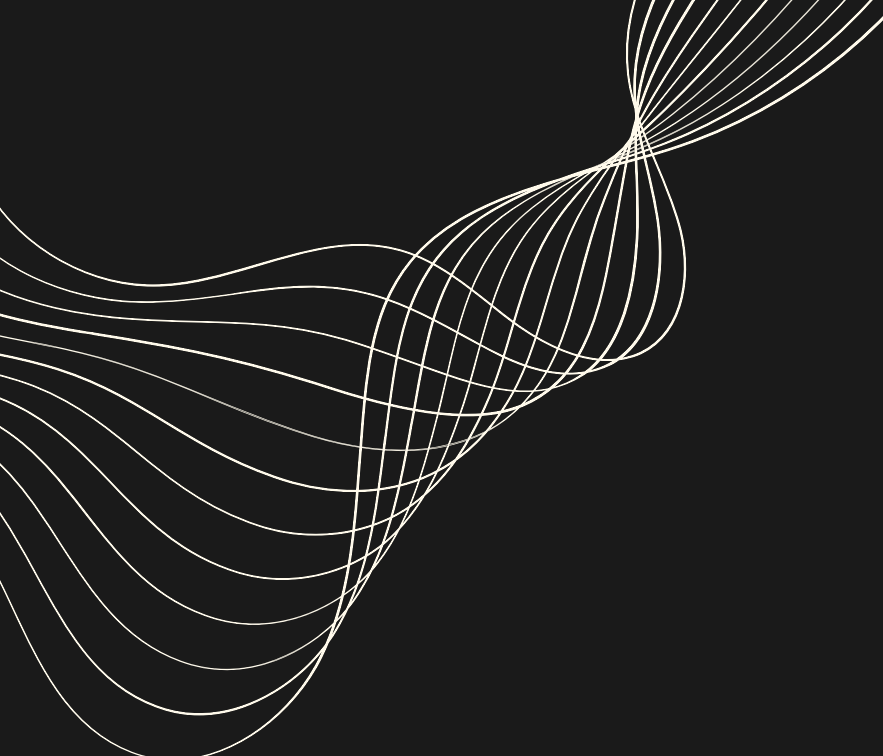

Provide counselling services to students struggling with addiction, offering a safe and supportive environment for them to express their concerns and challenges.

ROADMAP

Student Scanning QR Code.

1

Directed to Student Dashboard

3

Counsellor updates the student information.

5

Finding the addiction and appointing counsellor via ChatBot

2

Counsellor provides counselling sessions.

4

Bread Team Member's can see all the details and areas where the addiction peak.

6

FUTURE IMPROVEMENTS

Can generate QR code location specific in order to keep track of addicted student

Google Heatmap will show the pockets of neighborhood where the addictions peak

We Have Use Blockchain i this project to secure the Data like Student, Counsellor and Bread Team

Chatbot to be improved to ask more non-judgemental questions and predict addictions more effectively.

And also can add other features according to future requirements

We have track location of user. like which student use the website

THANKYOU
