

CILS-8100M – WHITE MATT POLYESTER

Identify it, trace it and keep it compliant with durable labels from CILS

CILS-8100M – when high performance is critical

High-performance, high grade, thermal transfer printable white durable matt polyester. This product has a high strength permanent adhesive, suitable for high surface energy (HSE) plastics and metals.

Perfect for flat, smooth and gently curved surface

Designed for optimal use in industrial and laboratory environments with abrasion and solvent resistance, CILS-8100M features a unique thermal printable surface for crisp, legible and permanent data.

Material Facestock type:	55 micron matt white polyester
Adhesive:	20 micron permanent solvent acrylic
Liner:	56 micron
Service temperature range:	-55°C to +155°C *
Minimum application temperature:	5°C
Supplied on:	1" / 1.5" / 3" cores
Available in:	Any size, shape, colour and design

Shelf Life and storage: 24 Months from date of dispatch by CILS when stored in the original packaging between 15°C & 25°C and 50 to 55% relative humidity.

* Temperature resistance of label applied to stainless steel, other substrates should be tested as per application

Printable straight from your thermal transfer printer.

CILS-8100M is resistant to:

Extreme temperatures -55°C to +155°C

Salt water, moisture & weathering

Oils and fuels

Chemicals

Solvents

Abrasion

Repeated handling

Autoclave / Sterilisation

Water baths

Humidity and moisture

Refrigeration & freezing

Cleaning agents

This label is perfect for:

Product identification

Component tracking

Rating and data plates

Metal enclosures

Barcoding

Asset identification

Calibration

Sample identification

Sample tracking

Laboratory glassware

Microplates / wellplates

Clinical trials

Medical Devices

Chemical/specimen storage

and many more...
