Common Requirements for ISO/TC 19139:2007 based INSPIRE metadata records. 3

Conformance Class 1: INSPIRE data sets and data set series baseline metadata. 3

Conformance Class 2c: INSPIRE data sets and data set series metadata for IACS Fehler: 1 / 3

This test suite examines metadata records against the requirements for metadata in INSPIRE.

Please report any issues or problems [in GitHub](#).

Known limitations are documented in the description of the applicable test case or test assertion.

Status Fehler

Dauer 25 s

Version 1.0.4

Test that keyword(s) for IACS data sets are provided in the metadata.

Status Fehler

Dauer 25 s

Keyword INSPIRE data theme

For every [MD_Keywords](#) element:

- Check that at least one of these values related to an INSPIRE data theme: [Land cover](#) for LPIS datasets OR [Land use](#) for GSAA datasets is provided using the [Keyword Anchor](#) encoding.
OR at least one of these values related to an INSPIRE data theme: Land cover for LPIS datasets OR Land use for GSAA datasets is provided using the [Keyword CharacterString](#) encoding.

Meldungen

XML document 'fab55608-b1af-4672-bbd6-4ddd44853ed2.xml', MD_Metadata ": Keyword(s) 'LPIS or GSAA' for IACS data sets are not provided in the metadata.

Keyword IACS CodeList value

For every [MD_Keywords](#) element:

- Check that [Keyword Anchor](#) is provided with xlink:href attribute pointing to [IACS](#) value and at least one these values: [LPIS](#) for LPIS datasets OR [GSAA](#) for GSAA datasets, from [IACS data controlled vocabulary](#).
OR [Keyword CharacterString](#) is provided with "IACS" value and at least one these values: "LPIS" for LPIS datasets OR "GSAA" for GSAA datasets.

In addition:

- Check that the [Thesaurus Name Title](#) contains the xlink:href attribute pointing to [IACS data controlled vocabulary](#) OR contains the "IACS Data" value.
- Check that the [Thesaurus Name Date](#) is exactly '2021-06-08'.
- Check that the [Thesaurus Name Datetype](#) is exactly 'publication'.
