## OSCAL Example Control Set July 22, 2022

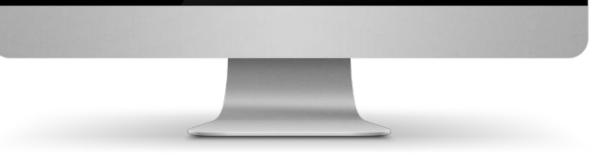

# Proposal: OSCAL Example Control Set

### Let's pick a small set of controls to consistently use in examples.

- Examples are very helpful
- Nice if everyone is using same examples
- Common public reference
- Good learning tool
- Only a few controls to make prototyping easier
- Product evaluations
- Support R&D

#### 800-53 Rev 5 micro

- CP-1 Policy and Procedures
- CP-6 Alternate Storage Site
- IA-2 Identification and Authentication (organizational Users)
- PE-8 Visitor Access Records
- SI-8 Spam Protection
- SC-28 Protection of Information at Rest

https://github.com/usnistgov/OSCAL/issues/1383

# Introduction: OSCAL Example Control Set

#### Criteria

- Demonstrates common types of controls
- Demonstrates common characteristics
- More than one family
- ODP with frequency (natural language v computable)
- Good for demonstrating rules
- (maybe) FedRAMP "useful"
- (maybe) Control with change to 800-53 Rev 5
- (maybe) Controls that exists at different baselines
- (maybe) Requires artifact

#### 800-53 Rev 5 micro

- CP-1 Policy and Procedures
- CP-6 Alternate Storage Site
- IA-2 Identification and Authentication (organizational Users)
- PE-8 Visitor Access Records
- SI-8 Spam Protection
- SC-28 Protection of Information at Rest

#### **Types/Characteristics of Controls**

| Organizational   | Parts & Sub Parts             | [Usually] Inherited              |
|------------------|-------------------------------|----------------------------------|
| Technical        | Organizational Defined Params | Hybrid                           |
| Policy (-1's)    | <b>References policy</b>      | <b>Customer Responsibilities</b> |
| Process-Oriented | Interconnection               | Roles<br>Go√Ready.               |

#### **Types/Characteristics of Controls**

| <b>Organizational</b><br>CP-1, CP-6, PE-8, SI-8 | Parts & Sub Parts<br>CP-1, CP-6, PE-8, SI-8, SC-28 | <b>[Usually] Inherited</b><br>CP-1, CP-6, PE-8, SI-8 |
|---|--|--|
|   |  |  |
| Technical                                       | <b>Organizational Defined Params</b>               | Hybrid   |
| IA-2, SC-28                                     | CP-1, PE-8, SC-28*                                 | CP-1, IA-2, PE-8, SC-28                              |
|   |  |  |
| Policy (-1's)                                   | <b>References policy or?</b>                       | <b>Customer Responsibilities</b>                     |
| CP-1  | CP-6, IA-2   | ?  |
|   |  |  |
| <b>Process-Oriented</b>                         | Interconnection                                    | Roles  |
| 5 <b>IA-2</b>                                   | ?  | PE-8 Gov Ready.                                      |

| CP-1 | Policy and Procedures  | a. Develop, document, and disseminate to [Assignment: organization-defined personnel or roles]:   |
|------|------------------------|---|
|      |                        | 1. [Selection (one or more): Organization-level; Mission/business process-level; System-level]  |
|      |                        | contingency planning policy that:   |
|      |                        | (a) Addresses purpose, scope, roles, responsibilities, management commitment, coordination among organizational entities, and compliance; and |
|      |                        | (b) Is consistent with applicable laws, executive orders, directives, regulations, policies, standards, and guidelines; and                   |
|      |                        | 2. Procedures to facilitate the implementation of the contingency planning policy and the associated contingency planning controls;           |
|      |                        | b. Designate an [Assignment: organization-defined official] to manage the development,  |
|      |                        | documentation, and dissemination of the contingency planning policy and procedures; and   |
|      |                        | c. Review and update the current contingency planning:  |
|      |                        | <ol> <li>Policy [Assignment: organization-defined frequency] and following [Assignment:<br/>organization-defined events]; and</li> </ol>      |
|      |                        | 2. Procedures [Assignment: organization-defined frequency] and following [Assignment: organization-defined events].                           |
| CP-6 | Alternate Storage Site | a. Establish an alternate storage site, including necessary agreements to permit the storage and retrieval of system backup information; and  |
|      |                        | b. Ensure that the alternate storage site provides controls equivalent to that of the primary site.   |

| IA-2 | Identification and<br>Authentication<br>(organizational Users) | Uniquely identify and authenticate organizational users and associate that unique identification with processes acting on behalf of those users. |
|------|--|--|
|------|--|--|

| PE-8 | Visitor Access Records | a. Maintain visitor access records to the facility where the system resides for [Assignment:<br>organization-defined time period]; |
|------|------------------------|--|
|      |                        | b. Review visitor access records [Assignment: organization-defined frequency]; and   |
|      |                        | c. Report anomalies in visitor access records to [Assignment: organization-defined personnel].                                     |
|      |                        |  |
|      |                        |  |
|      |                        |  |
|      |                        |  |
|      |                        |  |
|      |                        |  |
|      |                        |  |

| SC-28 | Protection of Information | Protect the [Selection (one or more): confidentiality; integrity] of the following |
|-------|---------------------------|--|
|       | at Rest                   | information  |
|       |                           | at rest: [Assignment: organization-defined information at rest].                   |
|       |                           |  |
|       |                           |  |
|       |                           |  |
|       |                           |  |
|       |                           |  |
|       |                           |  |

|   | letect and act |
|---|----------------|
| on<br>unsolicited messages; and<br>b. Update spam protection mechanisms when new releases are available in<br>with organizational configuration management policy and procedures. |                |

# For Consideration: Other Issues to Consider

#### Discuss

- Control Enhancement?
- Control Overlay Example?
- Controls from second framework?

#### 800-53 Rev 5 micro

- CP-1 Policy and Procedures
- CP-6 Alternate Storage Site
- IA-2 Identification and Authentication (organizational Users)
- PE-8 Visitor Access Records
- SI-8 Spam Protection
- SC-28 Protection of Information at Rest
